Message From the President

Information Meeting with the Citizens

"At O3 Mining, we are committed to sustainable development and respect for our host communities. We understand the importance of consulting those affected by our projects.

That is why I would like to personally invite you to our information meeting that will be help in the coming weeks. This meeting is organized in order to answer questions and gather comments from citizens. We believe that our project management must be done upstream and consult the population from the first phases of exploration."
